Congratulations on purchasing your new RCA Player.
Please read these instructions for quick tips on using the player.

Getting Started

1. Connect your player to your computer.

- The RCA easyRip™ Media Software installer (stored in the player*) will launch automatically. Click **NEXT** to begin the installation and follow the instructions to install the software on your PC.
- RCA easyRip is currently not compatible with DRM files and Audiobooks.
- If the installer does not auto-launch, locate and right-click the associated drive letter (i.e. OPAL) to show the option menu and select the “Install RCA easyRip™” option.
- The player charges automatically every time you connect it to your computer. It should be **charged for at least 3 hours** before using for the first time.

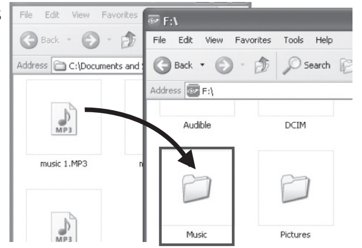

* The latest software can be downloaded from *www.rcaaudiovideo.com*.

v1.0 (EN/E)

2. Transfer audio/video/picture files to your player with either of the two methods below:

a) **RCA easyRip**: Helps to rip CD’s, create playlists, load content and manage your library with an intuitive and modular design. Click the easyRip icon ( ) on your PC desktop to launch the software.
- For details in using RCA easyRip, click the **Help** icon ( ) on the module dock.

b) **Windows Explorer**: drag-and-drop audio/image files to the **Internal Storage** folder (Windows Vista™) or the **Music** or **Picture** folder (Windows® XP) of the player.
- Video files must be transferred via easyRip, which automatically converts files to the Opal’s optimal format.

- The player is also compatible with most PC music management software.
- **Secure music transfer requirements:** to enable function of transferring subscription music content to the player, please select MTP (Media Transfer Protocol) mode under Protocol in the player’s Settings menu (refer to page 24 of the user manual).

3. Disconnect the player from the computer and enjoy media on the go.
